CAREER OBJECTIVE

Motivated and passionate Computer Science Engineering student with hands-on experience in Artificial Intelligence, Machine Learning, Deep Learning, and Generative AI. Skilled in Python, TensorFlow, FastAPI, and modern AI frameworks, with experience developing real-world AI solutions in computer vision, predictive analytics, intelligent chatbots, and surveillance systems. Seeking opportunities to apply technical expertise, research mindset, and problem-solving skills as an AI/ML Engineer while contributing to innovative and impactful technology solutions.

EDUCATION

B.Tech in Computer Science , Godavari Institute of Engineering and Technology, Rajahmundry CGPA: 8.53	2024-2027 AP, India
Diploma (Mech) , B.V.C College of Engineering , Palacharla,Rajahmundry Percentage: 78.42%	2019 - 2022 AP, India

TECHNICAL SKILLS

Programming Languages:	Python , Java (basic),Html
Frameworks/Libraries :	Numpy,Tensorflow,Streamlit
Backend / Cloud :	Firebase (Authentication, Realtime Database, Cloud Firestore)
Databases :	MySQL, Firebase (Realtime Database)
Developer Tools :	Git/GitHub, VS Code, Antigravity , Qoder, Cursor
Academic Coursework :	Compiler Designer,Softwer engineering,FLAT,Machine learning, Deep learning,
Certifications :	NPTEL – Cloud Computing

TECHNICAL TRAINING:

Techwing Cooperative Branch | GenAI

- Undergoing training in Genarative Artificial Intellegence.
- Learning L L M , machine learning, and deep learning concepts.

INTERNSHIP EXPERIENCE & PROJECTS :

- **AI-Powered Resume Screening & Candidate Ranking System** :Developed an AI-based system to analyze resumes,identify skills ,and rank candidates against job requirements using NLP and Machine learning.
Tools:Python,Flask,NLP,spaCy,Scikit-learn,SQLite **-Future Interns**
- **Food Recognition & Calorie Estimation using CNN** :Built a CNN-based image classification model to recognize food items from images.Estimated approximate calorie values based on the recognized food category.Tools:Python,TensorFlow/Keras,CNN,OpenCV,NumPy,Pandas. **-Prodigy Info Tech**
- **Hand Gesture Recognition using CNN** :Developed a Computer Vision model to recognize hand gestures from images/video.Used CNN-based image classification for real-time gesture recognition.
Tools:Python,TensorFlow/Keras,CNN,OpenCV,NumPy **-Prodigy Info Tech**
- **Personility Prediction System through CV Analysis**:Developed an AI system to analyze facial features and predict personility-related characteristics.Applied Computer Vision and Machine Learning techniques for classification.Tools:Python,OpenCV,TensorFlow/Keras,CNN,NumPy **-HexSoftware PVT LTD**
- **Heart Dieasease Detection using Machine Learning** :Built a Machine learning model to predict the likelihood of heart disease using patient-related features.Performed data preprocessing,model training,and performance evaluation. Tools:Python,Pandas,NumPy,Scikit-learn,Matplotlib. **-HexSoftware PVT LTD**
